This chapter contains the following information:

- Overview
- Configuration Options

This chapter will give a brief overview on configuring Real Player Gold 10 for maximum accessibility.

**Overview**

Similar to Windows Media Player, a few defaults need to be setup in RealPlayer to ensure maximum accessibility “out-of-the-box” for individuals with disabilities.

**Configuration Options**

Make sure that you have the latest version of RealPlayer installed. After installing the software, complete the following steps to ensure accessibility:

1. Start Windows Media Player
2. Select “Tools”, and then “Preferences” in the main toolbar.
3. It is recommended that RealPlayer only start up with the player itself, due to the possibility that the content in the media browser may not be accessible. To complete this, in the “General” category, select “Player only” under the option “On startup display”.
Configuring RealPlayer Gold 10

4. Next, navigate to the "Content" category, and turn on both options under "Accessibility", ensuring access for individuals with hearing impairments.

![Preferences window with selected options for accessibility]

On startup display: Player only (no Media Browser)
File Locations:
- My Library Files: H:
- Temporary Files: C:

Now Playing:
- Clear the Now Playing List
- Warn if the previous list has been customized
- Keep the last 100 clips in the Now Playing list

History:
- Clears all history lists accessible from the File menu and the address bar
- Enable a history list in the File menu

Help

Content

Clip Cache
Some clips you play frequently are stored temporarily in a special file for quick access later.

Language
Content providers may offer the same content in multiple languages.

Preferred language for content: English-US

Preferred playback method when this language is not primary:
- Subtitles
- Overdub track

Parental Controls
Use Parental Controls to restrict access to certain content.

Accessibility
Some content may provide additional features for hearing-impaired or sight-impaired viewers.
- Use supplemental text captioning when available.
- Use descriptive audio when available.
